EXAMPLE PROJECTS

BREWERY FINDER [LINK](#)

An app intended to connect users to breweries in their area, a simple task currently complicated by COVID. Brewery Finder makes it easier to find open breweries and check their purchasing options. Mainly JavaScript, some html and css.

WEATHER APP [LINK](#)

A lightweight weather app intended for travelers who wish to compare the forecasts in multiple destinations when planning trips. HTML, CSS, JavaScript.

CODING QUIZ [LINK](#)

A quiz I built for myself early in my development career, intended to help me fix simple, repeated mistakes. This was my first experience with complex Javascript, and one I particularly enjoyed. Also HTML and CSS.

EXPERIENCE

VOLUNTEER, SEATTLE CITY ARCHIVES, SEATTLE, WA – 2020-PRESENT

Working on a variety of self-directed projects centered around preserving physical or outdated digital resources in modern digital archives.

KITCHEN MANAGER IN TRAINING, CHIPOTLE, SEATTLE, WA – 2012 - PRESENT

Train new employees and continually uphold food safety and quality standards in a diverse, fast paced environment. Responsible for inventory and equipment maintenance. Fulfill catering orders. Regular cook and prep cook duties.

EDUCATION

University of Washington, Seattle, WA – Certificate, 2020

UW Full Stack Web Development Bootcamp.

University of Washington, Seattle, WA – B.A., 2017

English with Creative Writing Focus.

TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
